The Kootenay trade, since 1864, has largely contributed to build up the towns and settlements from Walla Walla to the boundary. The Diamond Fields of South

A CAUTION ; PROM NOTES BY "WHACHUM" WELL

KNOWN AS A PRACTICAL MINER. Another Cape mail is to hand. I find ample confirmation of the advice given in this column a week or two since. The colonial press approves the tone of the principal English and American papers in their fair indication of the hardships, difficulties, and mischances of diamond-hunting; trusts to the good common sense of people at home in discrediting the puffs of emigration agents and other interested parties, and in rejecting as absurd the sensational reports of some American prints; declines to add to their nepulation by untruths; and frankly forepopulation by untruths : and frankly forewarns emigrants that "unless they have means of their own, on which they can rely, and subsist for at least four or five months,

their luck at the diamond fields."

That there are precious stones, however, no one can deny. 1,001 diamonds are on view at one merchants; value, £16,000. "Unfortunately," says the paper from which I quote, "nearly all our diamonds," though comparatively large, are very imperfect, and many of them so full of flaws as greatly to depreciate their market value."—Royal Conwall Gasette.

Vessalling, April 20—Canrobert is here, and many of the Imperial army, under his command at the time of his surrender as prisoners of war, are on the way to Versailles.

The fire of the Insurgents is gradually acceptance.

It is rumored that arrangements have been made by which the Government is enabled to pay Germany at once, the five hundred million france indemnity, which is due on the first I stalmen:
